

SUSTAINABLE ROLLESTON SQUARE

ROLLESTON
SQUARE

Many of the features of Rolleston Square are voluntary measures by the owners to ensure that Rolleston Square is environmentally friendly. The advanced architectural design achieves a warm, dry, comfortable and healthy environment which minimizes energy and resource use.

QUALITY INDOOR ENVIRONMENT

Enhanced insulation by the Kingspan roofing system to control heat gain and loss.

WATER

Landscaping designed for minimal irrigation demand.

Roof water collected on site for irrigation use. Stormwater system design to capture contaminants

ECOLOGY

Excavation and filling requirements minimized by the design.

Over 1800 native trees and plants, and 1000m² of landscaping.

INNOVATION

The artwork on site is by local artists, the first commissioned pieces; the giant birds over the western entrance are by Allan Coleman of Ladbrooks.
